

OVYOO

BY AZU

RECORDED ON 25 MAY 2026, 11PM

The week I recorded this, I was around my girlfriend, and I kept telling her *“nakupenda ovyo ovyo.”* Being dramatic, I made a song out of it.

I wanted something catchy and simple, a song you can put on repeat without it ever getting tiring. I played it for her while she was in the kitchen cooking. She loved it, and she put it on repeat more times than I expected, so I considered the song a success.

I imagine it as the intro to an anime. It makes me want a getaway ride, feeling the air and just driving.

SAY IT TOO MUCH. THE PEOPLE YOU LOVE WON'T GET TIRED OF HEARING IT.
